

SNOWSHOE MOUNTAIN  
OUTDOOR ADVENTURES

Backcountry areas are not regularly patrolled and trails are not regularly cleared. Notify the Mountain Adventure Center if you see an obstacle or hazard on the trails. Please stay on designated trails.

### BACKCOUNTRY TRAILS GENERAL INFORMATION

#### ALL TRAIL USERS

**You are entering a Backcountry Area!**  
Trails are designated for mixed use by hikers, cross-country mountain bikers, and other users and activities. Please be courteous to other trail users, yield when appropriate, and pass with care.

These trails lead into remote areas with no services. Cellular phones may not have coverage. Ride or hike with a partner, and let a responsible party know where you will be and when you plan to return.

You may encounter authorized and unauthorized vehicles, trail work crews, and construction areas. Always stay alert and use caution!

Trails and/or lifts may be temporarily closed due to maintenance, weather, special events, construction, or trail conditions. Please check the report and obtain additional information at the Mountain Adventure Center or the Depot.

Weather conditions often change rapidly in the mountains. Finding sufficient shelter may not be possible. Be prepared. Bring enough water for your entire party. Potable water for drinking is not available in backcountry areas.

Never approach or feed wildlife. Do not get closer than 100 yards. Confrontations are best handled by staying calm and backing away slowly. Don't make wildlife feel threatened.

Take care of paradise... Leave only footprints, take nothing but pictures, and kill nothing but time.

Degree of difficulty rating and symbols are relative to Snowshoe Mountain only.

**UNAUTHORIZED MOTOR VEHICLE USE PROHIBITED!**
